

# PhotoMatch™

**PhotoMatch™** is our **FREE** onsite assistant. It can be used to tie images to data, collect data, upload images and transmit orders while you shoot and much more! Get data into PhotoMatch™ using our onsite & online registration tools, upload a roster or enter-as-you-go! Our goal is for PhotoMatch™ to eliminate office work, improve accuracy and increase speed. Features for sports, schools and special events.

## Be done with a job when you leave the shoot!

This installed program is provided to customers at **NO COST** and allows windows-based tablets to “talk” to most pro Canon and Nikon cameras. Tetherless option available. Includes integrated QR codes, bar code scanner and online registration tool options.

## Ecommerce

CCS provides powerful Ecommerce tools via our web-based CORE software with no upfront fees. We only charge an Ecommerce fee when an order is placed online by your customers. Ecommerce fees are charged based on the subtotal and shipping. Payment processing is charged based on the total including tax. Ecommerce fees are:

- Pre-Orders - 3%
- First Day Sales - 2%
- Other online sales start at 6%\*
- Ecommerce volume discounts apply
- 3% Payment processing

\*Fees range based on avg. storage (your file sizes) and account volume. And **we store your images for 15+ years!**

## Other CCS software

**QEMS** is our Quick Event Management System. This **FREE**, web-based software allows you to schedule staff, run payroll, keep a calendar of your jobs and much more!

**CCS Uploader** is our installed tool that can be used for uploading images to CORE (PC and MAC). Additional software tools available. See [candid.com](http://candid.com) for more details.
