Premier Sports Products

Our NEWEST product designs in our Sports Market include dynamic artwork for 16 different products! These products are produced from an image that is cut out (masked) and placed into eye-catching designs to create pro-level pieces that parents & athletes cannot create at home. Photographers can use chroma key or we will do the cutout for you as orders are placed! Cutouts are even returned to your CORE account so additional custom products can be ordered! Premier designs can be customized with logos, text, year and colors.

How Premier products work

Premier products require a “cutout” image, but chroma key is NOT required! There is also no need to order cutouts in advance. When a Premier product is ordered, our system will select the correct option. Photographers can:

- use chroma key or TKO service (page 19) or
- one-time individual cutout fee \$2.50 **
- one-time group/team cutout fee \$5.00**

**Multiple products or orders using the same original image will NOT incur multiple cutout fees. Manual cutouts may extend service time by 1 business day.

Premier products can even be offered as digital downloads!
