

Digital Downloads

CCS offers digital images on CD and as downloads accessible via our ecommerce site or via email link after purchase. There is absolutely NO labor for photographers to offer downloads using our services.

Downloads can be different resolutions intended for social media or print. They can also optionally include color correction, retouching, digital artwork, event titles and most of our product designs to add more value. We also have options to upload immediately to Facebook or give downloads to customers for free for the ultimate marketing flexibility!

Multiple image CD with Branded Case	\$5.90

Titles & Graphics

Customizing prints with titles and graphics can increase sales, and help you to book more business. Most of our print sizes can be customized with titles, graphics and logos at no additional charge to you. Some of these options allow you to choose between dozens of fonts and title colors. The text can be set by the photographer, or you can allow the consumer to type the text using the CORE Retail site.
